Rubber Gym Floor and Artificial Landscape Grass

Introduction to Ezzo's range of Sports Flooring Gym Rubber Floor Mats and Artificial Landscape Grass for indoor and outdoor use.

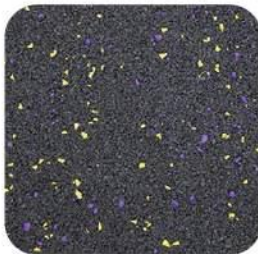

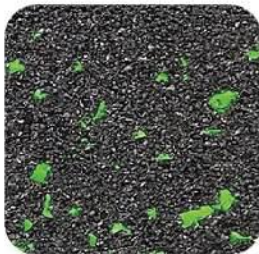

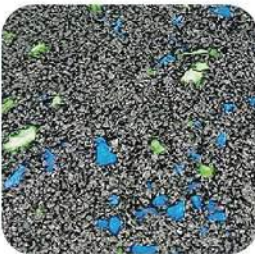

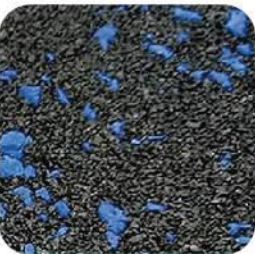

Selecting the right flooring is crucial when creating the ideal sports and fitness environment. Gym rubber floor mats have emerged as a popular choice for sports flooring due to their exceptional durability, versatility, and safety features. These mats not only enhance the overall aesthetics of the gym but also provide a comfortable and supportive surface for athletes and fitness enthusiasts alike. Whether it's a bustling commercial gym, a home workout space, or a rehabilitation centre, gym rubber floor mats offer a range of benefits that contribute to an optimal exercise experience. Our Catalogue will explore the essential varieties and advantages of gym rubber floor mats, shedding light on why they have become a staple in modern sports flooring solutions.

Our Catalogue also offers Artificial Landscape Grass. Today, artificial landscape grass provides a stunning alternative that delivers the aesthetic appeal of natural grass without burdensome maintenance. This innovative surfacing material replicates the look and feel of natural grass and offers durability, sustainability, and adaptability, making it a versatile choice for various environments. Whether gracing residential lawns, rooftop gardens, or commercial spaces, artificial landscape grass redefines outdoor aesthetics, enabling individuals to revel in nature's beauty while embracing modern technology's advantages.

ZCJM18402		50mm	Foam + PVC Leather	180kgs/cbm	14.4kgs
ZCJM18501			Foam + PVC Leather + Bottom anti-slip	180kgs/cbm	20kgs
ZCJM23501				230kgs/cbm	25kgs
ZCJM27501				270kgs/cbm	29kgs
ZCJM18402			Foam + PVC Leather	180kgs/cbm	18kgs

1. Customized bottom non-slip layer
It is more slip resistant and wear resistant, and has a longer service life.

2. The four corners are treated with hot edges
It is stronger and avoids the problem of opening glue.

3. Filled with high-density sponge inside
The ability to resist deformation is stronger.
