# Cork Flooring

Warm, elastic, and non-slip floor solution

Different from ordinary floors, cork floors have a comfortable cork surface layer, which brings a warm feeling to the feet. The cork silent pads on the bottom layer make the space more comfortable. The installation eliminates complicated processes, is convenient and fast, and can be disassembled for secondary use.

## Standard Size

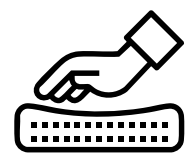

300x600x4mm

300x600x11mm

Available for customisation
